Subject: Request for Scholarship

Dear Sir/Madam,

I am writing this letter to request financial assistance for my higher education. I am a bright student and have recently completed my 12th grade with a score of 95%. I wish to pursue my Bachelor's degree in Engineering, but my family's financial situation is not conducive to supporting my education.

I have researched and come across your organization that provides scholarships to deserving students, and I believe I fit the eligibility criteria. I have a strong academic background, have participated in various extracurricular activities, and have also volunteered at local NGOs.

I have attached all the necessary documents, including my academic records, proof of income, and other supporting documents. I hope that you will consider my application and provide me with an opportunity to pursue my academic goals.

Thank you for your time and consideration.

Sincerely,

Rajeev Singh
